Error requests

400

```
{
        "status": "error",
        "message": "Error message.",
        "data": [

        ]
}
```

F.A.Q.

ALL F.A.Q.

Examples: URL/api/faq

RESPONSES
- *Success:*
```
{
  "status": "success",
  "message": "No data found for this request.",
  "data": []
}
```

- *Success:*
```
{
  "status": "success",
  "message": "FAQ List.",
  "data": [
    {
      "id": "3",
      "faq_question": "Test Question",
      "faq_answer": "Test Answer"
    },
    {
      "id": "5",
      "faq_question": "Test Question 2",
      "faq_answer": "Test Answer 2"
    }
  ]
}
```

Contact Us

Contact Us Validation

Examples: URL/api/faq

RESPONSES
- *Success:*
  ```
  {
    "status": "success",
    "message": "Message sent successfully. Thank you for contacting us!",
    "data": null
  }
  ```

- *Error:*
  ```
  {
    "status": "error",
    "message": "Failed to send your message. Please try again!",
    "data": null
  }
  ```

Projects

All Projects

Examples: URL/api/projects/get_projects

Required:
1. **project_type**– project type(main\other)

   Examples: URL/api/projects/get_projects?{project_type=}

RESPONSES
- *Success:*
  ```
  {
    "status": "success",
    "message": "Projects List",
    "data": {
          "main": [
  ```

```json
        {
                "id": "1",
                "name": "AMG",
